

## Index to World War I Draft Registration Pickens County, Georgia

Family Historians of the twenty-first century will find that the World War I Draft Registration cards are a vital resource. All of the draft registration cards for the entire United States and her territories are located at the National Archives–Southeast Region, East Point, Georgia. The cards have also been microfilmed and are available at various NARA regional facilities and the Family History Library. The film for Pickens County, Georgia, is available at the Pickens County Library in Jasper.

The following is a list of men from Pickens County, Georgia, who registered for one of the three draft registrations are indexed below. The cards contain a considerable amount of information, so don't stop here—locate the original record at the National Archives–Southeast Region, or view the record on microfilm.
