

1860 Pickens County, Georgia Mortality Schedule

Mortality schedules for the census years 1850 through 1880 recorded the names (and other data) of persons who had died during the twelve-month period preceding June 1st of the census year.

In 1860 eleven columns appear on the schedule with the following headings: 1) Name of every person who died during the year ending 1st June, 1860, whose usual place of abode at the time of death was in this family; 2) age; 3) sex; 4) color: white, black or mulatto; 5) free or slave; 6) married or widowed; 7) place of birth: naming the state, territory, or country; 8) the month in which the person died; 9) profession, occupation, or trade; 10) disease or cause of death; and 11) number of days ill.

Visitors of this site are encouraged to view the actual mortality schedule on microfilm as cited below. There is more data on the census schedule than is available in the abstracts give below on this web site. The microfilm is locally available at the Pickens County Library, Jasper, Georgia; the Georgia Archives, Atlanta, Georgia; and the National Archives-Southeast Region, East Point, Georgia. The film may also be rented and viewed at one of the many local LDS branch libraries of the Family History Library in Salt Lake City.

National Archives Micropublication T655, reel 8

Name	Age	Sex	M/W	Born	Death date	Disease
Swofford, Mary	43	f	M	NJ	May 1860	Dropsey
Fitts, Thomas	8	m		Ga.	Dec 1859	Fever
Fitts, Henry	3	m		Ga.	Dec 1859	Fever
